ORIGINAL LETTERFORMS. ONE SIGNAL DOT.

Logo & identity

noawezah.

A small kit for a consistent mark.

The supplied logo, rebuilt from its original font outlines.
Dark and white-background versions, ready for web and print.
Typography, color values, themes and usage in one place.

THE CORE

Neue Machina Ultrabold / 800
Ink #10110F / Chalk #F4F3E9 / Signal #DFFF65
Lowercase wordmark / -0.055em tracking / lime full stop

01 / LOGO & THEMES

One mark, four grounds

Dark / original

#10110F

Use on-ink or for-dark-backgrounds.

White / requested

#FFFFFF

Use on-white or for-light-backgrounds.

Chalk / warm light

#F4F3E9

Use for-light-backgrounds.

Signal / accent

#DFFF65

Use mono-ink for the whole wordmark.

TRANSPARENT OR SOLID?

for-dark-backgrounds and for-light-backgrounds have no background.
on-ink and on-white include a fixed background and matching vector PDF.
mono-ink and mono-white set every part of the mark to a single color.

The letter shapes, proportions and spacing stay the same in every version.
The signal-ground theme uses one color so the dot stays visible.

02 / COLOR VALUES & HUES

The color palette

Ink

#10110F

RGB 16, 17, 15

HSL 90 deg / 6.2% / 6.3%

Dark-theme dividers

*CMYK values are approximate conversions without an ICC profile.
Use HEX/RGB for digital work. Confirm print color with your printer.

03 / TYPOGRAPHY

The type behind it

WORDMARK / NEUE MACHINA ULTRABOLD

noawezah.

800 weight / lowercase / tracking -0.055em / default font kerning
Pangram Pangram / Mathieu Desjardins / supplied font version 2.000

DISPLAY FAMILY / SUPPLIED WEIGHTS

Light 300

Regular 400

Ultrabold 800

The logo uses Ultrabold. Light and Regular support display typography.

BODY / SATOSHI

Aa Bb Cc 0123456789

Clear copy, labels and everyday interface text.

Satoshi variable / 400 for body copy / 500 for controls and labels
The supplied WOFF2 and its license are in the fonts folder.

Production logos are vector paths, so no font installation is needed.
For editable text, install Neue Machina Ultrabold and keep the tracking.

04 / HANDOFF & USAGE

Use the right file

CLEAR SPACE

H / 2

Recommended clear space: half the visible logo height on every side.
The master artboards already include this space.
Recommended minimum width: 120 px on screen / 30 mm in print.

SVG	Websites and design tools. Scales cleanly; all lettering is outlined.
PDF	Vector masters on dark and white grounds, plus this guide.
PNG	Transparent or fixed ground, at 1000 / 2000 / 4000 px wide.
WebP / JPG	WebP preserves transparency. JPG includes a fixed ground.
EPS	Outlined legacy vector exchange for compatible design tools.
Favicons	Existing site icon in SVG, ICO, Apple and 192 / 512 px PNG.

KEEP IT CONSISTENT

Scale the mark proportionally. Keep the supplied spacing and dot position.
Use the version intended for the background; keep the letters readable.
The favicons preserve the existing site symbol rather than shrinking the wordmark.

Fonts are copied unchanged from the site. Neue Machina license terms were not supplied; use and sharing follow your original license. Satoshi terms are included.
Color tokens are in colors/palette.json and colors/brand-tokens.css.
